Subject: RE: Powerex RI Groundwater Sampling Event - Week of September 26th

Thank you all for your help.

Dave:

We plan to sample just VOCs, 3 vials = 120ml.

Tuesday afternoon may be a good time. But we are flexible. Let us know what works best for you and we will plan around it.

Ralph

Ralph,
I can assist in Westbay sample collection at EPA-1-D3 and EPA-2-D3.
What total sample volume will you need?
Let me know what day would best fit your schedule.

Dave,

As we discussed here, here is the e-mail from Ralph Morse describing the sampling proposed starting the week of 9/26/11. OB&G will need assistance sampling EPA-01-D3 and EPA-02-D3 intervals.

Thanks,

Joe

Joe,

I will be out until Monday, we need to talk. Please plan with Dave so he can help Ralph collect the samples.

Subject: Powerex RI Groundwater Sampling Event - Week of September 26th

On behalf of GE, O'Brien & Gere will be conducting the second and final groundwater sampling event associated with Work Plan Amendment No. 6 during the week of September 26th. This sampling event includes the recently installed bedrock wells located at well locations B-61 and B-62 (D1, D2 and D3 intervals). In addition, in order to get a "snap shot" of off-site conditions, we plan to sample several other off-site bedrock wells during this event, including the following: B-43D3, B-47D1, B-47D2, B-47D3, B-48D1, B-48D2, B-48D3, B-49I2, B-49D1, B-49D2, B-49D3, B-52D3, B-55D3, B-56D3, B-58D3 and B-59D3.

To complete this snap shot, we would also like to sample EPA-1D3 and EPA-2D3. So by way of this email, we are requesting access to these two wells. In addition, consistent with previous sampling events, we would require assistance from EPA (typically USGS) in collecting these samples.

If our request for access to EPA-1D3 and EPA-2D3 is acceptable, please let me know who to coordinate with.

Thank you and as always, please do not hesitate to contact Paul or I if you have any questions.

Ralph
